We, the undersigned Physicians, practising in the city of San Francisco, have examined the result of the analysis made by Dr L. Lansweert, Practical Chemist, of the Napa Soda Springs of Napa. The water, according to this examination, possesses aperient antacid and fine properties, which cannot fail to be very beneficial in the treatment of chronic diseases, and affording a pleasant, healthful and invigorating beverage.

FRIDAY MORNING, JULY 25TH, 1873.

L. P. FISHER, 20 and 21 New Merchants' Exchange, is our authorized Agent in San Francisco.

Froth and Fury.

Caught in every trick, exposed at every turn, the chief political thimble-rigger seems to have lost both his wits and his temper; for surely no man in possession of either would write the froth and fury article which appeared from his pen yesterday morning, every point in which stabs its author. 1st. The railway terminus: A few days ago we stated that for every line our contemporary could produce from its files in advocacy of Esquimalt as the terminus, we would undertake to produce two. We will now make it three, and hold ourselves ready to back up the assertion with a good, round wager. More than that: while this political thimblerigger was absorbed with his own little questionable schemes about which enough is already known, the senior member for this city in the House of Commons was quietly and unostentatiously working on the inner circle to secure the terminus at Esquimalt; and to so much purpose did he work that all that was left for the junior member to do was to elicit, by asking questions in the House, the result of his colleague's industry. And yet, notwithstanding these facts—facts which will very likely be denied but cannnot be successfully controverted—this "man of words and not of deeds," like the fly sitting on the wheel, cries, "See what I have done!" 2nd. The Dry Dock: This journal is charged with seeking to delay the construction of that important work, in the interest of our American neighbors. We shall not be expected to defend ourselves against such a charge, coming from such quarter. How earnestly this journal has advocated the importance and urgency of the dock, our files are our witnesses. It was for their milk-and-water policy in regard to this matter that we were most severe upon the late Administration; although it would now appear that they were prepared to lay before the Legislature an earnest and practicable policy in regard to this work. It is on account of the bare-faced sham by which the important work is to be indefinitely delayed, that we condemn the present. 3rd, Annexation: THE COLONIST called "the Annexation sheet" by the *Standard!* There are one hundred men in this community who can prove that the *Standard* was started to oppose THE COLONIST because the latter opposed Annexation! Does our contemporary demand the proof? 4th. The Esquimalt Police: One would have thought that our contemporary would have been silent on that subject, seeing the extremely ludicrous figure it cut thereanent is still fresh in the public mind. Our contemporary must have formed a very low estimate of the public, if it hopes to extricate its master from the mire into which his shallow and selfish trickery has brought him by the mere promulgation of such self-evident, puerile misstatements as were put forward yesterday. The attempt now being made to stave off the dock question by encouraging the hope that it will be undertaken as a Federal work will scarcely impose upon an intelligent public. We have the very best authority for stating that the Dominion Government distinctly and definitely decline to entertain any proposition looking in that direction. The same authority encourages the belief that, if applied to, the Dominion Government would consent to capitalize the dock guarantee, in order that it might be immediately available either in aid of a first class graving dock, or for the purpose of constructing a less expensive work.

Our Fishing Interests.

Of all the resources of British Columbia there are none more valuable than its fisheries, which, under proper management and encouragement, would supply the elements of a vast export trade, and, consequently of much provincial wealth. Their productions may be secured without the outlay of much capital, and as they always commanded a ready market, when delivered in good condition, there is seldom much risk in fishing enterprises. The utter neglect of our fishieries, the imperfect system generally pursued and the utter stagnation in our Province of every thing like business has had a blightening effect on one of our greatest resources and one of the best paying industries that enterprising men ever engaged in. When we remember what the Eastern States have done to stimulate their inhabitants in this branch of business and contrast their course with the supineness of our local Government we can scarcely wonder at the wealth remaining round our shores untouched by the hand of industry. It is some consolation, however, amid this "sleepy hollow existence" to hear of the success rewarding our enterprising fellow colonists, of the Fraser. We look forward with pleasure to the day not only when these gentlemen have amassed wealth but when thousands of others will follow in their wake and cover those magnificent waters with teeming flottillas of fishing smacks.

STITCH! STITCH! STITCH!—But no longer with fingers weary and worn. For the justly celebrated "Lockman Sewing Machine" can be had of the undersigned. This machine has more points of excellence than any other yet invented. In simplicity of construction, perfection of workmanship, ease of working, durability cheapness and many other valuable qualities, it stands unequalled. Sold at Canadian prices, by BROWN & WHITE, new Dry Goods Store, Fort street, Sole agents for Vancouver Island.

Interior Department.

A well informed contemporary, in an article complimenting the Hon. Mr. Campbell upon his elevation to this important new Department in the Federal administration, thus defines the functions and jurisdiction:

"This new Department will take the place of that of Secretary of State. The duties of the office are exceedingly important. The Minister of the Interior is to have the control and management of the affairs of the North West Territories; to be the Superintendent General of Indian affairs, and, as such, to have the control and management of the lands and property of the Indians of Canada; to have the control and management of all Crown Lands being the property of the Dominion, including those known as Ordnance and Admiralty Lands, and all other public lands not specially under the control of the Public Works Department, or of that of Militia and Defence (and excepting also Marine Hospitals and Light Houses, and land connected therewith, and St. Paul's, Sable and Portage Islands); and he is substituted for the former Commissioner of Crown Lands, as regards Ordnance and Admiralty Lands, transferred to the late Province of Canada, and lying in Ontario and Quebec. And all the duties given to the Secretary of State by the Dominion Lands Act, 1812, are transferred now to the Minister of the Interior.

A Warning to the Inhabitants of Victoria and Vicinity.

FOR TWO YEARS PAST WE HAVE offered to supply your leading Butchers with meats from one to two cents per pound less than they have paid other parties. For certain reasons they have spurned our offers. These reasons have worked detrimental to your interests as well as ours. We have now made arrangements to supply one of your worthy citizens, Mr. John Parker, with meats for your market, when he cannot purchase a sufficient supply on your Island and at prices to compete with other firms. We think you will all be able to discern a marked difference in the prices which he will ask from those which you have had to pay for the past few years.

We wish to warn all persons who desire meats at reasonable rates against entering into any contract with other parties until they have learned the prices which Mr. Parker will ask.

Very respectfully,

THURSDAY, July 24.

Hugh McKenzie, for fast driving over Esquimalt Bridge; fined costs.

Thos. Tugwell, on the same charge, fined $1 and costs.

DESERTION EXTRAORDINARY. — Yesterday afternoon two sailors detailed for duty at the Dockyard, seized the boat of Mr. Dodd and rowed out of Esquimalt harbor, with the intention of deserting. They were warned repeatedly to stop. Failing compliance, shots were fired after them; but they still held on their way. A boat, well-manned, was sent after the fugitives, and after several more shots were fired they gave in and surrendered.

ADDITIONAL.

After the above was put in type we learned that the sailors belonged to H. M. S. Tenedos. They were pursued by three boats from the fleet, and upwards of 50 rounds of ball cartridge were fired at them. But one ball took effect, breaking one of the fugitives' oar in the centre, when they gave up, after having made ten miles. The pursuing boats had four-and-a-half hours' pull. The dredger-tug Grappler, which had up steam, started after the flying men, but they were caught, as before stated, by the ships' boats.

WELL DONE, SEATTLE!—The mass meeting held at Seattle a few evenings ago eventuated in the organization of a joint stock company, with a capital stock of ten millions, for the purpose of building a railway to the Columbia river, to connect with the Walla Walla and Wallula railway and, ultimately, with the Union Pacific. The management of the affairs of the Company is committed to a Board of Trustees consisting of thirteen members, seven of which were elected as follows: A. A. Denny, H. L. Yesler, John Collins, J. J. McGilvra, Frank Matthias, James McNaught, and A. Mackintosh; leaving six vacancies, to be filled by interested parties outside of Seattle. Articles of incorporation were filed yesterday and within a very short time engineers will be in the field surveying the route for the proposed railroad.

FROM NANAIMO.—The steamer Sir James Douglas, Capt. Clarke, arrived at 5:30 p. m. yesterday from Nanaimo and way ports. She brought down the mails, farm produce in the shape of calves, fruit, chickens, etc.; 11,000 shingles, and 16 passengers, among whom were Miss Glyde, Miss M. Glyde, Capt. Cooper and wife, Father Brabant, Mrs. Goodhue, and Messrs. Fawcett, Weir, Pimbury, Holmes and others. The Victor was loading at the Douglas Pit and would be ready for sea on Saturday. The steamship California left Nanaimo day before yesterday for Sitka. The Douglas will leave this port for Howe Sound, with Mr. Marcus Smith, C. E., on Monday morning.

FACTS FOR FARMERS.—A series of experiments instituted to test the average loss in weight by drying, show that corn loses one-fifth and wheat one-fourteenth by the process. From this, statement is made that farmers will make more by selling unshelled corn in the fall at 75 cents than the following summer at $1 per bushel, and that wheat at $1 32 in December is equal to $1 50 for the same wheat in June following. This estimate is made on the basis of interest at seven per cent., and takes no account of loss from vermin. These facts are worthy of consideration.—*Exchange.*

DELUSIVE WHISTLE.—A faint whistle, it was thought, was heard (we always have to guess)—the Enterprise, which was due, must surely be coming. Away fly the hacks, away go the pedestrians, off trudge the press reporters and newspaper men, when lo and behold a dead pause by the crowd at the top of the descent to the wharf. The phantom steamer we had seen in our imagination had vanished, and we were fooled! This often occurs, and comes from the steamers sounding their whistles too far away. They might as well whistle away in mid-ocean.

STEAMER MAUDE.—This favorite boat will sail for Burrard Inlet at 8 o'clock on Tuesday morning next. Upon her return the Maude will receive a coat of paint, afterwards she will take the place of the steamer Enterprise on the New Westminster route, while the latter will lie up for repairs.

IN the race between the cutters of H. M. Ships Tenedos and Reindeer, the former claimed "a foul," and the latter rowed over the course.

Metchosin Church.

A most interesting ceremony took place at Metchosin yesterday afternoon in the presence of a numerous congregation, the occasion being the laying of the foundation stone of St. Mary's Church. There were present His Lordship the Bishop of Columbia and Mrs. Hills, Rev. Mr. Jenns and Mrs. Jenns, Rev. Frank Gribbell (officiating minister) and Mrs. Gribbell, Capt. Reay, R. N,. E. Mallandaine, Esq. (the architect), B. W. Pearse, Esq., Mr. Innes, R. N., Capt. Lawrence, Mrs. Fisher, Mr. and Mrs. Helgeson, Miss Rhodes, Mrs. Higgins, Miss Robson, Miss Sutton, Miss Work, Miss Elliott, Mr. Parker, Miss Parker, Mr. Gleed, a very efficient choir and about 40 others. The stone was laid by Mrs Hills. Beneath the stone was deposited the following paper:

The corner stone of this Church, dedicated to St. Mary, the Virgin, was laid this 24th day of July, 1873, by Mrs. Hills, wife of the Right Reverend the Lord Bishop of Columbia, His Honor Joseph William Trutch being Lieut.-Governor, George Hills, D. D., Bishop of British Columbia; Frank B. Gribbell, Officiating Minister; Edward Mallandaine, Architect; Thos. Gleed, Hans Helgeson, Churchwardens; B. W. Pearse, J. Weir, J. Whittey, E. Rosmond, Jno. Lawrence, Arthur Peatt, John Parker, J. Gleede, Church Committee.

After the stone had been laid, prayer was offered by the Lord Bishop, who also delivered a fervent address. His Lordship asked God's blessing on the work, and trusted that there peace, unity and concord would find a dwelling-place. Mr. Pearse offered a few earnest and appropriate remarks, and was followed by the Rev. Mr. Gribbell, who referred in warm terms to the assistance that Mrs. Hills had rendered the St. Mary's congregation. A collection was taken up and realized a handsome sum. The congregation were dismissed with a blessing and the Doxology. The church will be a handsome building, very prettily situated and will cost about $1300.

Washington Territory.

We (Seattle *Dispatch*) have visited and thoroughly examined the coal mine recently opened by Mr. Smithers, on Black River, about ten miles south-east of this city, and can truthfully say, in general terms, that for quantity, quality and facility of access, it exceeds everything of the kind yet developed on the Pacific Coast, and all the coal mines we ever saw in the famous coal regions of Pennsylvania and Virginia.

The Seattle *Dispatch* takes strong ground against the employment of Chinese labor on railway works, and it suggests that the Seattle and Walla Walla Railway Company set the example.

Rents at Tacoma have gone up enormously—in some instances, from $8 a month to $100. It is said the tide is ebbing now.

Wright, who was shot by Terry, lies in a precarious state.

The Esquimalt Dry Dock Meeting.

We are requested to state that this meeting will take place, as advertised, THIS EVENING at Selleck's Hotel, at 8 o'clock.

MR. MCCARTHY, former Policeman at Esquimalt, has been sent back to that town in the same capacity by the Government, who, however, have committed the unpardonable meanness of cutting off the sum formerly allowed him for rent and fuel—about $12 per month. McCarthy's pay is only $1 75 per day.

FROM THE SOUND.—The steamer North Pacific arrived yesterday about 3:30 p.m. She brought H. M. Mails, Wells-Fargo's Express, a few passengers, a large number of sheep, and some 50 head of cattle. She gives no passenger list.

ACCIDENT.—A little boy of Mr. Dewsnap was kicked by a horse yesterday. The wound is on the forehead. Dr. Helmcken was called in and pronounced the child out of danger.

THANKS to Messrs Hibben & Co. for files of Harper's, New York and California papers; and also to Mr. Harrison for files of *The Graphic*.

CRICKET.—In the match yesterday between Eleven of the Boxer against Eleven of the Tenedos and Myrmidon, the Boxers won in one innings with 8 runs to spare. Score to-morrow.

THE schooner Favorite sailed from San Francisco on the 18th inst. for Victoria with a light cargo valued at $1,710.

SISTERLY.—New Westminster is going to send down to-morrow a "first sod" and a bucket of fresh water.

A TROUBLESOME POSSESSION.—The inconvenience of winning an elephant at a raffle has never, probably, been tested; it is a purely imaginary dilemma. But something very like it has occurred at Marseilles. The elephant in the Zoological Gardens in that place, which was sold by the municipal authorities there, refuses to leave the abode he has occupied for more than twenty years. He has several times been purchased, but whenever the time comes for the delivery of the article, the article itself entirely objects to the measure, and positively refuses to move. As it costs the town 17f per day to support this headstrong pensioner, the municipal counsel has lost patience, and is determined upon suppressing him altogether. The poor animal had better, at any cost to his feelings, have acknowledged himself sold, for, as an old writer said of a certain execution, the manner of his death will be "very particular," the naval authorities of Toulon having asked leave to try the effect of a recently invented torpedo upon the huge body of the unhappy pachyderm.

FREE LOVE.—A Battle Creek (Mich.) dispatch of June 39th says: "One of the most memorable meetings of Woodhullites yet held in this State came off yesterday and to-day. The principal manipulators of the meeting were W. F. Jamison Mrs. L. E. Drake, D. W. Hall and J. O. Barrett. On Saturday afternoon, in the course of his lecture, W. F. Jamison performed the marriage ceremony by uniting a couple from Detroit named Dr. Murray and Mrs. Annie Gullion. They were commanded by the speaker to arise in their seats in the audience, when they were pronounced man and wife without even a word of consent from either party as to whether they accepted each other as man and wife or not.

EDITOR COLONIST:—The singular honor of having the governing power of this Province placed in the hands of half educated and self-satisfied men, whose attainments just suffice to exhibit their insignificance as dunces, and whom the mixed evil of perfidy and accident released from their legitimate functions of photographer, hatter and grocer, would, to say the least, be ludicrously laughable, were it not for the incalculable mischief to be apprehended from the general feeling of insecurity and the certainty that the Province is rapidly drifting into ruin and contempt. If the injury resulting from this state of affairs were confined to the individuals administering the Government no appreciable harm would be done; no matter what amount of castigation were inflicted upon them it would be richly deserved, and every good citizen would say, "Serve them right." I do not, however, wish to be understood as saying anything in disparagement of any tradescraft. Tradesmen have rendered high and substantial political service both in England and in the Provinces; but they were a different type of men, and were not of the same mould as the persons who are indicated in this letter.

I remember reading in some old Latin treatise a burlesque account of the Transmigration of Souls — whatever that may mean—but the instantaneous transmigration of Hatters' stalls to Treasury benches is a new departure, the *change* of which is said to be "so awful, jolly nice."

Every schoolboy has heard the sailor's story of how "defunct shellbacks are transformed into rats," but it was reserved for British Columbia to tell, how defunct hucksters are transformed into Premiers, Finance Ministers and Chiefs of Lands and Works. I intend to review, in a series of letters, the political record of the gentlemen who are at present intrusted with the power of governing. I shall endeavor to show that the wide-spread indignation of the people, bitterly denouncing the disgraceful chicanery of an utterly demoralized government, is fully justified by the recent conduct of Ministers, who, by means of the most unblushing effrontery, hoodwinked and deceived the community to serve their own selfish ends. All reasonable men must admit—even when guided by the most comprehensive charity—that the present Government have grossly abused their power—that they have mismanaged the affairs of the Province, and that the present discontent is attributable to the conspicious absence of both Executive and administrative capacity.

THE "COLONIST'S" SPECIAL DISPATCHES.

LAST NIGHT'S DISPATCHES.

Eastern States.

NEW YORK, July 23.—A suit has been brought against Lizzie King, alias Kate Shoddard, the object of which is to foreclose a mortgage on Goodrich's house in Deleware street, Brooklyn. Miss King, alias Shoddard, is made a party to cover any rights she may have as widow of Chas. Goodrich. When papers were received, and it was explained to the prisoner that the object was to cut off her claim to any of the property, she said she had no desire to get a dollar out of the Goodrich Estate, nor does she propose to claim anything; but, that she does mean to keep certain trinkets which he presented her with, and which she says are now in her father's possession.

WILLIAMSPORT, Pa., July 23.—Isabella McBride, aged seventy, was brutally murdered last night, by being shot through the head. Her husband, John McBride, was knocked down by a club and received several severe cuts in the head, and when found this p.m. was lying weltering in his blood; but he is living. The old couple lived alone and were supposed to have a large sum of money. Thirty thousand dollars was found in the house. There is no clue to the murderers.

NEW YORK, July 23.—One of the survivors of the wrecked steamer Atlantic, has brought a suit against the owners for $100,000, claiming he has been disabled for life by reason of having his legs frozen.

Mexico.

NEW ORLEANS, July 23.—A dispatch received from Malamoras says an official telegram has been received from General Ceballas, military commander of this city, dated, Tepison July 12th, and announces the complete defeat of the revolutionists in the state of Jolisco and capture of the famous chieftain Losada, who has for the last fifteen years refused to submit to the authority of the Federal Government, and has had a band of malcontents in armed hostility nearly all the time.

Canada.

ST. JOHN, July 23.—The steamer Tigress, in search of the Polaris, arrived here this morning; she will remain here a day or two, to coal.

Is Eugenie Crazy.

NEW YORK, July 7th.—The *World's* Geneva letter gives a conversation with the Empress of France. She says her visit to France is for political purposes, and it is useless to try and conceal it. She believe there will soon be a general return of the people to order; and say that the Piedmontese Government at Rome, and the anti-Christian and Pagan Court at Berlin, and the wild Communists at Madrid, are filled with fear at the awakening of Catholic France. Now, she says, that the wretched Thiers is gone all moves well. McMahon is prudent, and loves France. The future, said Eugenie, is ours, and France will lead the reaction against the forces which have seemed to threaten the existence of society and religion throughout Europe. She says in future that France would again be at the head of the nations. The robbers would be driven out of Rome, the Pope restored, and Germany divided into harlmess States

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superseded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared on his premises on Government street, and sold by all the principal dealers.

***

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony.

Dominion Mail Summary.

OTTAWA, July 10.—Sir John and Lady Macdonald will probably leave for River Du Loup to morrow.

Mr. Witton, M. P., and the other Commissioners to the Vienna Exhibition, sail on Saturday's steamer for their destination.

Mr. J. M. Courtenay, of the Treasury Board, left to-day to inspect the Government Savings' Banks in New Brunswick. Mr. Timms, of the audit office, will perform a similar duty in Nova Scotia.

The Hon. J. W. Richie has been appointed Judge in Nova Scotia, vice Archibald, who has been elevated to the Governship of that Province.

The *Globe's* correspondent says the Canadian Pacific Railway Directors have not put in an appearance as was expected. It is understood that the Government have in hand the report by Sir Hugh of his proceedings in England, which is said to call for very grave consideration. It is thought remarkable that the members of the Privy Council have dispersed to their homes and the watering places, not again to meet till the time for which Parliament is called, without having taken any action in the matter of the railway. This dilatoriness has given rise to various rumors, how well founded it cannot be said. The chief of which is that the Government will ultimately break off with Sir Hugh Allan, and propose to build the road under the management of the Department of Public Works. The distant members of the Commons, it is understood, have been notified by letter to hold themselves in readiness to be called to Ottawa by telegraph, since there is still some doubt in the minds of the Ministers that there will be a meeting of the House. The summoning of their supporters from the outlaying Provinces will depend probably upon the indications amongst the Opposition in Ontario and Quebec.

FORT GARRY, July 9.—The preliminary examination of the kidnappers of Lord Gordon and their abettors is proceeding before Judge Betournay. It will probably last three or four days, and end in the committal of some if not all the prisoners. The Mayor of Minneapolis and some of the most prominent members of the St. Paul bar are here. The court refused to permit the American lawyers to act. There is any quantity of money on hand for the defence of the Americans, who are in reality backed by Jay Gould, of New York.

OTTAWA, July 9—I understand the Government have decided to grant out of the appropriation of last session a bonus of fifteen per cent. on all Civil Service salaries at the Capital, one-half of which will be paid at once, the other half in December, and that they placed the salaries of the deputy heads on a uniform footing of $3,200.

The new Department of the Interior will have the management of the Ordinance and Indian Lands formerly under the control of Hon. Mr. Aikins, the Dominion Lands and Geological staff. Hon. Mr. Aikins retains the Queen's Printers' branch, the stationary department, registration of bonds, commissions, land patents, etc., as well as the provincial and foreign correspondence.

Mr. Cunningham, M. P. for Marquette, arrived this morning from England. We understand while in England he had interviews with several members of the House of Commons, touching some matters more immediately connected with Manitoba. On the afternoon of the debate on the Pacific guarantee bill, Mr. Cunningham and the Hon. Donald A. Smith, M. P., were accommodated with seats on the floor of the House.

MONTREAL, July 8—It is proposed to erect an opera house at a cost of $300,000 on the site of the St. Patrick's Hall. Several gentlemen of abundant means have associated for the purpose. One of them proposes to rent the building for $36,000 a year.

MONTREAL, July 10th.

The *Globe's* Ottawa correspondent says, It is reported here now that at the meeting of the Pacific Railway Directors on Friday last, Sir Hugh Allan submitted to his co-directors an offer from a well-known promoter in England to form a syndicate for the purpose of attempting to float the scheme, if the Government and Legislature assent to the following conditions:—The time of completing the work to be extended from eight to twelve years; authority to be given to issue the bonds at 85 per cent. net; and to increase the issue from $40,000 per mile, as now limited by Act of Parliament, to $50,000 per mile, and certain modifications to be made in the terms on which the payments of the cash subsidy of $30,000,000 are provided for by the Act. These concessions being obtained, the delegation will at once return to England and conclude the provisional arrangement.

There came near being bloodshed at St. Thomas on the 4th, over the Stars and Stripes. The flag was cut down by John Macdonald, a prominent railway contractor. Having been raised again, Macdonald went to cut it down a second time; a crowd gathered; the police were called on and when about to be arrested, Macdonald drew a revolver on the officer. He was finally arrested and lodged in gaol. The affray occasioned considerable excitement.

Pope Hennessy.

The Hero of a Celebrated Novel.

There passed through this city lately, "en route" to the seat of his Governorship, Bermuda, a remarkable Irishman—Governor Pope Hennessy. Mr. Hennessy, who is still quite a young man, was a few years ago in the House of Commons, and whilst there became in so many respects a man of mark that it is generally understood that a popular novelist seized upon him as the hero of a novel, and that he is the original of Trollope's 'Phineas Phinni.' Mr. Hennessy was first brought into public notice by the exigencies of politics in that truculent district of Ireland, King's County, demanding a compromise between Catholic and Protestant. What was required was a Roman Catholic Conservative, an article very difficult to find amongst persons respectable both in character and ability. Probably through some local influence the choice fell upon a young man, a clerk in the Education Department of the Privy Council office in London, who presently wrote the magic letters "M. P." after Pope Hennessy. At St. Stephen's this young gentleman, who is reputed "a thorough good fellow," made many friends, and earned a decided reputation for ability. Indeed a speech which he made relative to the affairs of Poland may probably be regarded the most brilliant and effective which has fallen from a member of Parliament of his years for at least a quarter of a century It was rumored that Mr. Disraeli, not unmindful that he was once a clever adventurer in the same field, looked kindly on the young man, and intimated that "something must be done for Pope Hennessy." A general election came, and Mr Hennessy lost his seat for King's County, and could not find another. His means did not admit of his waiting idly on Providence, and he presently procured an appointment as Governor of some obscure island. There he remained for a time; but his friends appear to be true to him, and although they are not now in office, would seem, nevertheless, to interest the Colonial Office in his behalf. First he was transferred to the Governorship of the Gold Coast, and was appointed to settle the terms on which Holland ceded to England her possessions in that quarter, and having, no doubt, done good service, was not long after rewarded by the Governorship of Bermuda. It is highly probable that Mr. Hennessy, whose career has, it will be seen, been thus far interesting, will end by filling some very important governorship, or possibly even carry his experience to Downing street, as Her Majesty's Principal Secretary of State for the Colonies.—"N. Y. World."

The Shah.

Naser-ed-deen, is now forty-four years of age, and has been Shah of Persia since 1848. Under his Persian cap, he wears a comically respectable pair of gold bowed spectacles astride of his aquiline nose. His frock coat is plaited over the hips, and five enormous diamonds, each larger than Queen Victoria's Koh-i-noor, are arranged *en echelon* upon the front of the coat, from waist to shoulder. The collar and sleeves are crusted with brilliants. The Shah's orders are of the most precious jewelry. His sword hilt and sheath are studded with rubies, emeralds and diamonds, set in purest gold and his spurs flash like sunbeams. This gorgeous personage is attended by fifty-five followers, and they in turn have thirty-three servants—eighty-eight Persians, all resplendent in light or dark blue lace and variegated clothing.

The Shah speaks French with considerable readiness, but finds European society rather oppressive for the most part, and in public is painfully conscious of his feet and hands. He has learned with surprise that it is customery for European monarchs to acknowledge popular testimonials of respect, and sometimes raises his hand to his forehead with an angry impatient gesture, but at others simply stares at the uncovered throng and is greatly disconcerted to find that the people, instead of casting down their eyes, return his stare with interest.

At the state dinner in Berlin, he ate with his fingers, and when he found on his plate anything which he did not like, he threw it down—not on the floor but upon the flowing robes of the gracious Empress Augusta. On leaving the theatre, he did not offer his arm to the Empress, but caught hold of the lady's arm just above the elbow and gave her a perceptible shove; then finding her stately movements too slow to suit his taste, he dropped her arm and forged ahead, leaving Her Majesty to follow as she might. The Shah sent back three wives who had accompanied him to the confines of Russia, but espoused another in Prussia—a girl of fifteen whom he saw by accident, and for whom he immediately proposed to her mother, who favored the suit when she found that suitable provision would be made for her daughter's future in Persia.

Christians in the employ of the Turkish Government will henceforth (the 'Turquie' says) be compelled to work on Sundays.

Medical.

FRENCH MEDICINES

Prepared by

GRIMAULT & CO.,

Pharmaceutical Chemists,

8, Rue Vivienne,

PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Leras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, add is the most rational of all chlybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

GRIMAULT & CO.'s Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration and restors the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one of the most recent scientific discoveries in theraputics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconvencies of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation or pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh, bronchitis, hæmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & CO.'s Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s Pectora Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influonza, bronchitis, hooping coughs, &c.

Asthma. Asthma. GRIMAULT & Co.'s Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only pallintives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomnia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headeche. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels, This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s Vermifuge Santonime Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure iodide of Iron, is a valuable resource in lymphatic and crofulous affections, as also in consumption.

$10,000.....On 15th May, 1873;
15,000.....On 1st August, 1873;
75,000.....On 1st April, 1874;

Payable in Twenty-five years from the date thereof.

The Corporation of the City of Victoria having the right to repurchase from time to time the said Debentures, for the purpose of withdrawing the same from the market, the numbers of the Debentures so to be repurchased shall be decided by a ballot, of which One Month's notice shall be given, by publication in the Government Gazette or in one or more of the local newspapers. Ample security is thus given to those wishing to invest in Debentures.

A deposit of Ten per cent. on the amount of Debentures applied for will require to be paid into the Bank of British North America to the credit of the Water Works account, a receipt of said deposit to accompany the application, and on the Debentures being issued, they will be placed in the said Bank and handed over to the party who presents the Water Commissioner's Certificate of his being entitled to receive the said Debentures on his paying the full equivalent as mentioned in said Certificate; and in the event of the Debentures not being fully paid for on the day of issue abovementioned, the deposit of the Ten per cent. shall be forfeited to the use of the Water Commissioner for Water Works purposes.

Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the works to be constructed. The proposed Works consist in bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of between five and six miles, and present no Engineering difficulties in carrying out the undertaking.

Forms of application for Debentures, with Bank Deposit Receipt attached, as well as any further information that may be desired, can be had by application personally or by letter addressed to the Commissioner.
